

# Flooring

## Solid Wood

- CTG is proud to provide several hardwood Flooring options durable and elegant, an all natural product is hard to match.
- Hardwood Floors are available in ash, bamboo, beech, cherry, hevea, jatoba, kempas, maple, marabou, oak, red oak, & walnut- all allowing you to create the ambiance and mood to suit the design properties of most any project.

Any choice of solid wood Flooring is a long-term investment in any project as they can be re-finished or re-coated numerous times, adding to their appeal and long life.

Nailed down or fully glued down, or snapped together, solid wood flooring gives a unique and uniform appearance, and are fabricated in accordance with the flooring standards in your region of the world.

- ▶ Wood from around the world
- ▶ Finished & unfinished
- ▶ Sheets or tongue & groove

# Flooring Engineered

- CTG engineered flooring is a new and exceptional innovation that offers increased dimensional stability while remaining a genuine wood product.
- With the look of hard wood flooring, CTG's engineered flooring brings elegance to any room or project.

Engineered wood Flooring pieces are cut from a number of timber piles and bonded together creating a 3 tiered structure.

Excellent in areas where solid hardwood cannot be installed such as in basements, below grade, and geographical areas with high humidity or moisture levels.

- ▶ Frameless installation
- ▶ 'Floating' Flooring
- ▶ Little-to-no maintenance required
- ▶ Available in most any type of wood

# Flooring Laminated

- CTG'S laminate Flooring mimics the look of traditional woods while offering easy installation and lasting durability.
- Wear-resistant decorative surfaces made of resin-based melamine makes these Floors difficult to stain, scratch, or burn.
- CTG's assortment of colors, patterns, and other beautiful designs bring an authentic look to any project.

Laminate Flooring is a reliable choice for a resilient Floor with the largest assortment of aesthetic options.

Whether it be rustic stone, soothing ceramic, or any of the classic woods, laminate Flooring can replicate the originals with ease.

▶ Chemical resistant

▶ Stain & moisture resistant

▶ Easily maintained

▶ Lower cost than typical Flooring products
